INDEX OF PAPERS PUBLISHED IN 2024

Abramian, V. L., Vishnevsky, V. M., and Larionov, A. A. Radio Frequency Identification in Transport Application. – No. 1. – P. 2–12.
Alchinov, A. I., Gorokhovsky, I. N., and Akif'eva, E. V. State-of-the-Art and Development Trends of Geographic Information Systems. – No. 2. – P. 2–16.
Avdeeva Z. K., Grebenyuk E. A. and Kovriga S. V. Analysis of Medium-Term Forecasting Methods for Processes with Structural Shifts in Financial and Commodity Markets. – No. 5. – P. 2–19.
Beketov, S. M., Pospelov, K. N. and Redko, S. G. A Human Capital Simulation Model in Innovation Projects. – No. 3. – P. 16–25.
Belov, A. A. and Andrianova, O. G. Calculating the Spectral Entropy of a Stationary Random Process. – No. 6. – P. 16–21.
Bogdanov, A. D., Kolobov, D. V., and Shchepkin, A. V. Modeling the Procurement of School Equipment and Competition among Suppliers. – No. 1. – P. 28–33.
Dranko, O. I., Rezchikov, A. F., Stepanovskaya, I. A., Bogomolov, A. S., and Kushnikov, V. A. Scenario Modeling of Economic Growth Based on Indicative Planning. – No. 5. – P.20–34.
Efanov, D. V. and Yelina Y. I. Design of Self–Checking Digital Devices with Boolean Signals Correction Using Weight-Based Bose–Lin Codes. – No. 4. – P. 22-36.
Efremov, A. Yu. Aggregation Behavior of Mobile Robots in a Swarm Control Algorithm under Natural Constraints. – No. 1. – P. 65–74.
Galyaev, A. A., Samokhin, A. S., and Samokhina, M. A. Modeling of the Target's Interception Delay in an ADT Game with One or Two Defenders. – No. 2. – P. 66–76.
Gayvoronskiy, S. A., Khozhaev, I. V., and Sobol, A. V. Robust Controller Design Ensuring the Desired Aperiodic Stability Degree of a Control System with Affine Uncertainty. – No. 4. – P. 2–9.
Gorbaneva, O. I. and Ougolnitsky, G. A. Control Models in Power Hierarchies. – No. 1. – P. 34–45.
Gubanov, D. A., Kuznetsov, O. P., Kurako, E. A., et al. ISAND: An Information System for Scientific Activity Analysis (in the Field of Control Theory and Its Applications). – No. 3. – P. 35–55.
Gusev, V. B. A Combined Management Model for Restructuring a Reproduction System. – No. 3. – P. 26–34.
Isaeva, I. I., Kharitonov, M. A., Vasilchenko, A. A., et al. Sustainable Development of Floodplain Territories of Regulated Rivers. Part II: Designing an Effective Territory Structure Management System. – No. 1. – P. 46–64.
Kosorukov, O. A. and Lemtyuzhnikova, D. V. An Optimal Allocation Algorithm for Reentrant Resources on Network Graphs. – No. 2. – P. 17–22.
Kruglov, S. P., Kovyrshin, S. V., and Butorin, D. V. An Identification-Based Control Method for an Overhead Crane with a New Combined Sensor Placement. – No. 4. – P. 52–62.
Kruglov, S. P. Adaptive Control of a Scalar Plant in the Input–Output form Based on the Identification–Approximation Approach. – No. 6. – P. 32–42.
Kubryak, O. V. and Kovalchuk, S. V. An Artificial Sensory Component in a Man–Machine System with Combined Feedback. – No. 6. – P. 22–31.
Kulida, E. L. and Lebedev, V. G. Modern Approaches to Prognostics and Health Management of an Aircraft Electromechanical Actuator. – No. 3. – P. 2–15.
Kulida, E. L. and Lebedev, V. G. Prospective Approaches to Predicting the Remaining Useful Life of Aircraft Engines. – No. 6. – P. 2–15.
Kulshin, R. S. and Sidorov, A. A. An Entropy-Based Composite Indicator for Evaluating the Effectiveness of Recommender System Algorithms. – No. 4. – P. 37–51.

Makarov, M. I. A Local Path Planning Algorithm for Avoiding Obstacles in the Frenet Frame. – No. 3. – P. 56–61.
Nelyubin, A. P. and Podinovski, V. V. Mean Values: A Multicriteria Approach. Part III. – No. 1. – P. 13–17.
Nevecherya, A. P. and Popova, E. V. The Sectoral Structure Dynamics of a Labor Market Based on the Balance Mathematical Model. – No. 2. – P. 48–58.
Petrov, I. V. and Chkhartishvili, A. G. The Incentive-Targeting Problem in a Reflexive Game with a Point-Type Awareness Structure. – No. 5. – P. 35–40.
Potapov, A. P. and Rubinovich, E. Ya. Building a Defender's 3D Program Path in an ADT Game with Incomplete A Priori Target Information. – No. 5. – P. 48–53.
Samokhina, M. A. and Galyaev, A. A. Constructing a Map of Locally Optimal Paths for a Controlled Moving Object in a Threat Environment. – No. 1. – P. 75–85.
31st International Conference on Problems of Complex Systems Security Control. – No. 1. – P. 86–90.
Sosedov, V. A. Combined Hierarchical Crossover in a Genetic Algorithm for Last-Mile Delivery: Efficiency Analysis. – No. 1. – P. 18–27.
Tolok, A. V. and Tolok, N. B. Functional Voxel Modeling of a Path Planning Algorithm to a Target Based on R-Functions. – No. 5. – P. 41–47.
17th International Conference on Management of Large-Scale System Development (MLSD′2024). – No. 6. – P. 43–49.
Varnavskii, V. G. Structural Shifts and the Participation of Russian Industries in Global Value Chains: An Analysis Using World Input–Output Tables. – No. 2. – P. 23–32.
Varyukhina, E. V. and Klochkov, V. V. Assessing the Effectiveness of Intellectual Technologies for Identifying Hazardous Combinations of Events in Civil Aviation Flight Safety Management. – No. 2. – P. 59–65.
Vega, A. Yu. and Enaleev, A. K. Integrated Climate Change Impact Assessment and an Adaptation Financing Mechanism for Infrastructure Facilities. – No. 2. – P. 33–47.
Vishnevsky, V. M., Larionov, A. A., Mukhtarov, A. A., and Sokolov, A. M. Investigation of Tandem Queuing Systems Using Machine Learning Methods. – No. 4. – P. 10–21.
