

# INDEX OF PAPERS PUBLISHED IN 2013

**Akinfiev V.K., Tsvirkun A.D.** Issues of investments management. FR-INVEST software package. — 2013. — № 4. — C. 32—40.

**Aleshin B.S., Bazhenov S.G., Lebedev V.G., Kulida E.L.** Use of on-board model of airliner to evaluate capability and safety of trajectories. — 2013. — N 4. — P. 64—71.

**Aliseychik A.P., Pavlovsky V.E.** Multi-wheeled mobile robot model and dynamic assessment of controllability and operational comfort. — 2013. — N 1. — P. 70—78.

**Andrienko A.Ya., Tropova E.I., Chadaev A.I.** Improvement of propellant flow control launching vehicle «Souz-2» for ensuring increase of environmental friendliness of their operation. — 2013. — N 4. — P. 72—75.

**Asratian R.E., Lebedev V.N.** Proxy servers in distributed heterogeneous multi-network environments. — 2013. — N 2. — P. 45—50.

**Babushkina N.A.** Assessment of controlling dosage treatment using the virus-derived vaccine through the mathematical model. — 2013. — N 5. — P. 60—65.

**Bolodurina I.P., Parfenov D.I.** Controlling the flow of requests for access to broadband multimedia educational resources in system of distance education. — 2013. — N 6. — P. 24—30.

**Burlakov E.A.** Mathematical modeling of small and middle sized organizations at the early crisis stage. — 2013. — N 3. — P. 41—50.

**Chentsov A.A., Chentsov A.G., Chentsov P.A.** Elements of dynamic programming in extremal route problems. — 2013. — N 5. — P. 12—21.

«Control Sciences» journal tenth anniversary. — 2013. — N 1. — P. 2—6.

**Economic** policy in the time of global turmoil: towards a new paradigm. — 2013. — N 5. — P. 80—83.

**Furtat I.B.** Adaptive control of some class of non-minimum phase plants. — 2013. — N 1. — P. 19—25.

**Goldovskaya M.D., Dorofeyuk J.A., Kiseleva N.E.** Structural analysis methods in the applied problems of time series study. — 2013. — N 3. — P. 33—40.

**Gorelik V.A., Zolotova T.V.** About some estimations of stability of the share market and the influence of investors information awareness on its. — 2013. — N 6. — P. 41—47.

**Grebennik G.G., Krygin A.A., Nikishov S.M.** Algorithmization of technological accessions to electric networks. — 2013. — N 3. — P. 60—70.

**Gusev L.A.** Interval estimation of probability in the presence of indistinguishability. — 2013. — N 4. — P. 16—22.

**Habrov V.V.** Dynamic managing of investment portfolios based on vector autoregression models and multivariate volatility models. — 2013. — N 2. — P. 20—35.

**Index** of papers published in 2013. — 2013. — N 6. — P. 80—81.

**Ivanov V.P.** Relationship between fundamental science, applied research and control systems design practice. — 2013. — N 1. — P. 83—85.

**Konev D.S.** Tight-coupled inertial-satellite systems on the basis of invariant model of mobile object condition. — 2013. — N 2. — P. 65—72.

**Kornetova A.N., Chervonenkis A.Ya.** Optimizing advertisements display for top ad placement in sponsored search. — 2013. — N 1. — P. 40—49.

**Kornoushenko E.K.** Regression estimation (mass appraisal) in cases when dependent variable contains an unobservable part. — 2013. — N 4. — P. 23—31.

**Kosachev Yu.V.** Optimal management of innovation within the framework of the integrated structure. — 2013. — N 1. — P. 32—39.

**Kosjachenko S.A., Kovalevsky S.S., Somov S.K.** Problem of synthesis of optimal real time data processing modular system with «Client — Server» architecture. — 2013. — N 4. — P. 41—49.

**Krutova I.N., Sukhanov V.M.** The comparative analysis of features of gyro-force control of large-scale space-crafts for three algorithm types. — 2013. — N 4. — P. 76—81.

**Kubyshkin V.A., Postnov S.S.** Investigation of optimal control problem for single and double integrators of fractional order using the method of moments in case when admissible control belongs to  $L_p[0, T]$  space. — 2013. — N 3. — P. 9—17.

**Kuzmin O.V., Kedrin V.S.** Analysis of harmonic structure of time series based on singular value decomposition algorithm. — 2013. — N 1. — P. 26—31.

**Lakeev A.V., Rusanov V.A., Kozerev V.A.** On realization of quasi-linear systems described by stationary differential equations in Hilbert space. — 2013. — N 1. — P. 7—18.

**Larina E.A., Sidorenko A.M., Khobotov E.N.** Scheduling methods for discrete manufacturers. — 2013. — N 3. — P. 71—77.

**Legovich Yu.S., Maximov D.Yu.** Decision choice problem in self-organizing control systems. — 2013. — N 3. — P. 18—26.

**Makarov V.L., Bakhtizin A.R., Sushko E.D.** Computer simulation of interaction between municipalities, regions, government authorities. — 2013. — N 6. — P. 31—40.

**Meshcheryakov V.N., Meshcheryakova O.V., Sarayev P.V.** Mathematical modeling and process control in industrial automation systems using complex-valued neural networks. — 2013. — N 6. — P. 71—75.

- Morozov M.V.** Robust stability of discrete control systems with periodic interval constraints. — 2013. — N 4. — P. 11—15.
- Nepeivoda N.N.** Алгебраический подход к управлению. — 2013. — N 6. — P. 2—14.
- Novikov D.A.** Big Data: from Brahe — to Newton. — 2013. — N 6. — P. 15—23.
- Pankova L.A., Pronina V.A.** Text retrieval models based on fuzzy set theory. — 2013. — N 2. — P. 41—44.
- Pavel Pavlovich Parkhomenko** (on the 90<sup>th</sup> anniversary of birth). — 2013. — N 1. — P. 86—87.
- Petrovets Yu.O., Andrianov D.L.** Optimal planning of renovation of railway line: formulation, algorithms for solving. — 2013. — N 1. — P. 50—56.
- Petruschenko V.V.** Heterogeneity in data envelopment analysis. — 2013. — N 5. — P. 2—11.
- Rouban A.I.** Sensitivity functionals in Bolza problem for the multivariate dynamic systems described by integro-differential equations with delay. — 2013. — N 2. — P. 2—8.
- Saraev P.V., Syaglova Yu.E.** Increasing of foreign exchange hedging effectiveness based on results of neurostructural prediction. — 2013. — N 6. — P. 48—52.
- Shaikin M.E.** To the problem of stealth moving of the object in a threat environment on the periphery of its contact with a sonar station. — 2013. — N 5. — P. 66—78.
- Shilin A.A., Bukreev V.G.** Dynamic determination of sliding trajectory in relay control of nonlinear object. — 2013. — N 5. — P. 22—28.
- Shomova E.N.** Probability model of influence of scientific research funding on the effectiveness of innovative project. — 2013. — N 3. — P. 27—32.
- Somov Ye.I.** Syntesis of nonlinear control law for a flexible satellite respinup by weak internal torques. — 2013. — N 1. — P. 63—69.
- Somov Ye.I., Butyrin S.A.** In-flight identification and gyromoment stabilization of large-scale satellite weak damping structure. — 2013. — N 2. — P. 51—57.
- Stetsyura G.G.** Interaction of active objects in digital systems: the mechanisms and technical realization. — 2013. — N 5. — P. 39—53.
- Sulakshin S.S., Avanova A.N., Bogdan I.V.** Quantitative assessment of country development success index and its prognostic potential. — 2013. — N 2. — P. 16—19.
- Symposium «Measures of complexity»**, dedicated to A.Ja. Chervonenkis 75th anniversary. — 2013. — N 6. — P. 76—77.
- The Sixth** international conference «Large-scale systems development control» MLSD'2012. — 2013. — N 2. — P. 76—79.
- The Sixth** international conference on parallel computing and control problems (PACO'2012). — 2013. — N 2. — P. 73—75.
- Tsykunov A.M.** Robust control for object with the distributed time delay. — 2013. — N 3. — P. 2—8.
- Vedeshenkov V.A.** An approach to diagnosing of the arising fault in digital systems with symmetric bipartite graph structures. — 2013. — N 2. — P. 36—40.
- Vice-President** of the USSR Academy of Sciences academician Boris Petrov (on the 100<sup>th</sup> anniversary of birth). — 2013. — N 1. — P. 79—82.
- Vishnevsky V.M., Larionov A.A., Semenova O.V.** Performance evaluation of the high-speed wireless tandem network using centimeter and millimeter-wave channels. — 2013. — N 4. — P. 50—56.
- Volkova I.O., Goubko M.V., Salnikova E.A.** Active consumer: Problem of joint optimization of energy consumption and local generation. — 2013. — N 6. — P. 53—61.
- Volkovitskiy A.K., Karshakov E.V., Pavlov B.V.** Positioning of moving objects in low-frequency electromagnetic field. Part I. Base algorithm of relative positioning. — 2013. — N 1. — P. 57—62.
- Volkovitskiy A.K., Karshakov E.V., Pavlov B.V.** Positioning of moving objects in low-frequency electromagnetic field. Part II. Aspects of technical implementation. — 2013. — N 2. — P. 58—64.
- Vorobjev G.G., Dmitrenko L.G.** Feasibility analysis of construction of intelligence theory on the basis of K.G. Joung's analytical psychology. — 2013. — N 4. — P. 82—87.
- Vshivkova O.A., Komarov A.S., Frolov P.V., Khlebo-pros R.G.** The role of environmental heterogeneity in the control of ixodes ticks population number: cellular automata model. — 2013. — N 4. — P. 57—63.
- Zak Yu.A.** The construction schedule for the performance of tasks of parallel systems of machines and production lines. — 2013. — N 6. — P. 62—70.
- Zenkov S.M., Mitrishkin Yu.V., Fokina E.K.** Plasma position, shape and current control systems in T-15 tokamak. — 2013. — N 4. — P. 2—10.
- Zharkikh A.A., Bychkova S.M.** Two ways to compute probabilities of recognition of shift direction of point on a plane on a background of random rotations. — 2013. — N 2. — P. 9—15.
- Zhilyakova L.Yu.** The limit states control in absorbing resource networks. — 2013. — N 3. — P. 51—59.
- Zykin S.V., Poluyanov A.N.** Formation of multidimensional data using intermediate representations. — 2013. — N 5. — P. 54—59.
- Ahohov A.A., Bludian N.O., Dorofeyuk J.A., Cherniavsky A.L.** Inter-regional bus transportation control system development on the basis of collective multiple-choice examination methods. — 2013. — N 5. — P. 29—38.
- XX International** conference «Control problems of complex systems security». — 2013. — N 3. — P. 71—77.
